**One World Award 2010 by Rapunzel
Nomination of SEKEM Initiative with Heliopolis University / Egypt**

Dear jury members,

hereby the German based NGO Aktion LebensTräume e.V. submits the proposal of the SEKEM Initiative with Heliopolis University / Egypt for the nomination of the One World Award 2010.

The NGO Aktion LebensTräume e.V. started in 1994 with social and cultural projects in Germany for children and youth. We initiated international partnerships and we are continuously focused on the realisation of sustainable projects with the communities here in Germany and in the target areas, e.g. Afghanistan, Bosnia-Serbia, Haiti, Northdakota/USA, Palestine, Tanzania, Tibet. With our voluntary services in the field of education, health care and human rights we support our partners in the process of establishing ecological, sustainable self-help projects and future oriented job opportunities. Our general principle hereby is "One World – One Heart" and this is guiding us in our work from heart to heart, from person to person, from nation to nation.

Everybody today depends on vital partnership in a trustful network – respecting the interdependence of ecology, economy and culture. SEKEM with its initiative provides a working model and through Heliopolis University soon qualified staff for international projects in our One World. The holistic development initiative SEKEM with its ethic and ecological engagement in economy, culture and society represents a sustainable and successful development model with an important role for the individual, society, entrepreneurship and our earth.

At the moment the nomination of SEKEM with its initiative, the new farms and the new project Heliopolis University would introduce and support this work in the world. Therefore we would be very glad if the nomination will be accepted.

Sincerely yours

Klaus Wassermann
Chairman Aktion LebensTräume e.V.

Bernd Ziegmann
